Hi, Thanks to all of you for your incredible job on Saturday. But I do not want to focus only on your beautiful decorations, nice gifts, good music, and delicious food. No doubt that the environment was beautiful, lovely and cozy (and showed a lot of work!), but I wanted to share that these mothers were talking a lot about your kindness, your smiles, your LOVE! even when you knew their health condition. I was so impressed about these comments that I have decided to ask them to write these comments during our next support group meeting (May16). I will pass them on to you because they are coming from the bottom of their hearts. During and after the event I felt that the purpose of going out from ASF (AIDS Services Foundation) was accomplished. **Acceptance and love are two of the most needed ingredients in the lives of these women and you over passed any expectations we got before the event when you embraced these mothers with kindness and love.** Wow, what a great combination: they were served by hostesses full of the love of God in such a beautiful environment! Karen (*the guest speaker*) while making home visits yesterday a woman told me that your words were so powerful that have transformed her life! They loved all of you. Thanks again for showing GOD'S LOVE in such a powerful way. Juanita

Ladies ~

My heart was full of joy as I watched the Mother's Day event last Saturday. When I walked into the room, my thoughts went back to last year when Juanita asked staff if we had plants in our offices she could borrow to decorate the tables. What a transformation of the event from last year to this one. I knew in my heart that there had to be a group of women of faith who wanted to honor our Spanish speaking mother's. You were

abundantly faithful in making it an incredible morning. I'm sure each woman who attended felt very special and honored! **My faith was increased as I witnessed the event. Your outreach to our Spanish speaking mothers is a witness to the love of God in your hearts and your desire to minister to a hurting world. Undoubtedly you entertained "angels" through your love and hospitality.**

Thank you from the bottom of my heart! If there is ever anything I can do to help you please don't hesitate to call.
